FOREWORD.

THE first BROOKLINE DIRECTORY was published by the present publishers in 1868 and this for 1904 is the twenty fifth, representing not only a quarter of a century, but a period of thirty six years. The edition of 1868 required only 43 pages with single column of names on each page. The general directory of the present edition contains 138 pages with double columns on each page.

Great changes will be noticed in the map which has been entirely redrawn and printed in atlas form including a portion of Brighton known as Aberdeen and the territory between the Brookline line and the Commonwealth avenue.

The scale is larger and all new ways are clearly indicated by the section line and index letters and figures and location can be readily found. The postal districts—Brookline, Boulevard and Chestnut Hill have boundaries in color. Improvements have been made in the Street Directory and House Atlas. The General Directory contains 9,647 names, many changes and additional names indicating the growth of the town.

A new department has been added containing lists of Births, Marriages and Deaths, Automobile Owners, Horse Owners and Theatre Diagrams. The Miscellaneous Department has been greatly extended.

Some of the advertisers whose cards appear in the original edition of 1868 are represented in this of 1904.

Those who have supported the efforts of the publishers to make the Directory more valuable than before are entitled to the thanks of those who use it.

Respectfully,

W. A. GREENOUGH & CO.

A TASTE OF QUALITY — PAINE'S

We plan for you pretty and ingenious schemes for the effective treatment of the walls of the modern house. Here are a few examples:

1. **An Artistic Plan:** Green burlap paper for dado, chair rail of old weathered oak, tapestry paper in deep foliage above the rail. Curtains of India crepe.

2. **A Harmonious Reception Room:** Absinthe wall paper in Adam design, ivory woodwork, soft damask curtains in old rose color with Battenberg laces.

3. **A Fresh, Dainty Bedroom:** The lower two thirds of the wall covered with moire paper in ciel blue, plate rail of ivory, upper third of trellis pattern with morning glories, curtains of rose silk, with dotted Swiss muslin.

We have many similar schemes, incorporating some of our new French and American wall papers of the better sort.

MURESCO

For Wall and Ceiling Decorations.

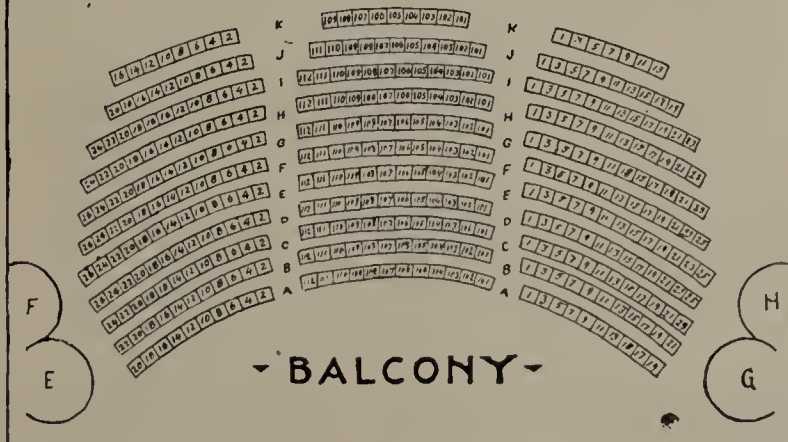

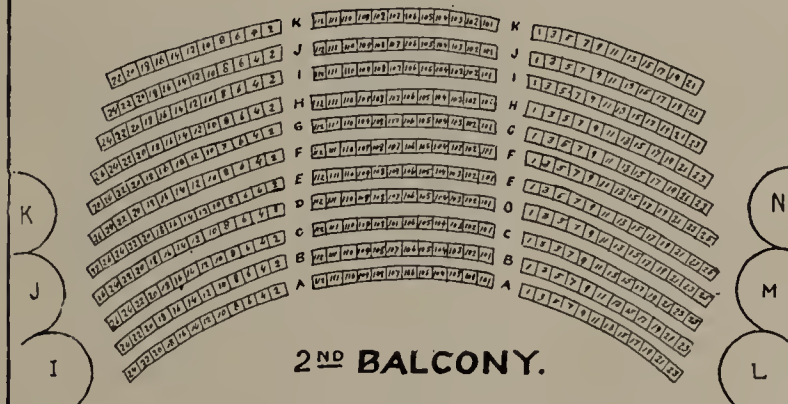

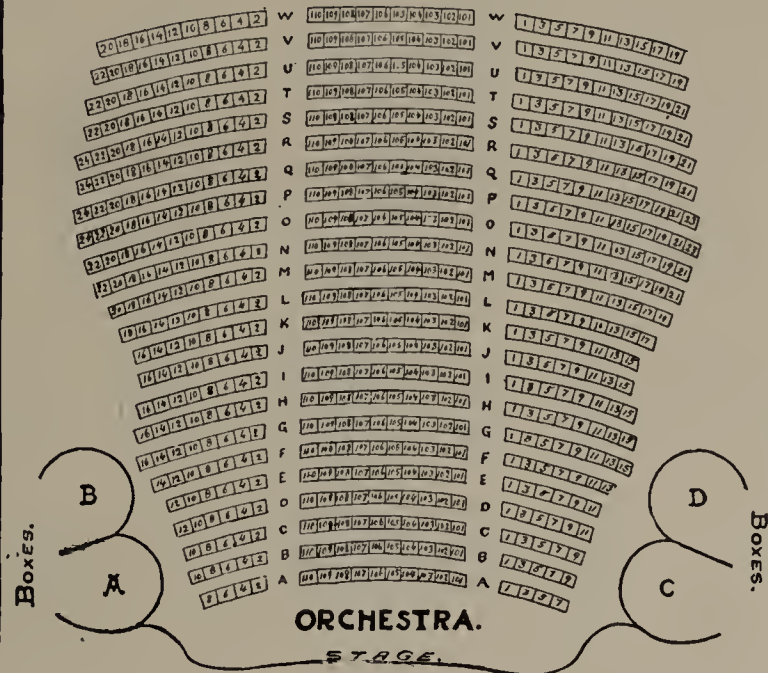

Beautiful.
Economical
Healthful.
Fireproof.
Durable.

Muresco is artistic; it produces a finish that has a soft, smooth, silky appearance which is very agreeable and restful to the eye. It is cleaner and more healthful than wall-paper, wears better and is fireproof. Muresco is good enough for the finest decorations, cheap enough for the coarsest work.

THE Present Exhibit of LUCAS CARRIAGES discloses the correct models. Each one embodies in a marked degree the lines of artistic conception, as well as that durability which accompanies the most conscientious construction. And yet these two elements of superiority have been harmoniously blended under price conditions which make this exhibit of especial significance. Your early inspection is solicited. :: :: :: :: :: ::

REGULATIONS CONCERNING
FIRE ALARMS.

First alarm to be given by striking four rounds on all bells.

Second alarm to be given by striking three blows on all bells.

Third alarm to be given by striking ten blows on all bells.

1 One stroke at 12 M. Washington time, and 9 p. m. every evening.

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters.

INFORMATION FOR YOU.

The key to your nearest fire alarm box, you will find in small box attached to door of fire box.

To give an alarm, break glass in front of small box, turn the key you will find there, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately to the superintendent or at the Station House, the box out of order.

Before ringing an alarm be sure that a fire actually exists.

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible.

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given.

After the first alarm has been rung in, all other alarms or signals are given only by the engineers.

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law.

SPECIAL NOTICE.

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.
